

ASTHMA & ALLERGY OF IDAHO

We are aware of the recent closure of Spokane Allergy & Asthma Clinic and the significant impact this has had on patients and families who relied on their services.

Our team is committed to supporting those with urgent allergy and asthma care needs who are now seeking replacement medical care. We understand that continuity of care is critical, especially for patients with active treatment plans, severe allergies, or uncontrolled asthma.

Due to the sudden increase in requests, we ask for your patience as we work diligently to accommodate as many individuals as possible. Our staff is making every effort to respond promptly, triage urgent cases, and expeditiously establish care within our practice.

If you are seeking to transfer care, please contact our office to begin the intake process. Having your prior medical records, medication list, and insurance information available will help us serve you more quickly.

We appreciate your understanding during this time and remain dedicated to providing timely, compassionate, and specialized care to our community. We look forward to serving you!
